## CAPABILITIES

- 48" wide, 4,800 lb direct push/auger capable platform with Tier 4 final engine.
- GH63 percussion hammer.
- Uses tooling ranging from 5' down to 1' depending on overhead clearance.
- Low clearance cylinder allows for probing indoor spaces as low as 8'.
- Remote Control allows easy maneuvering in tight spaces.
- Custom Advanced Scrubber Diesel Particulate exhaust system allows for working indoors with no fumes.
- Auger capabilities to enable getting through tight soils.
- Rear stabilizer blade works with Geoprobe® drop racks.
- Load-sense hydraulics reduce fuel consumption.
